2023
Sponsorship Opportunities

The Eastern Gas Compression Roundtable has a long history of providing the highest quality education for the gas compression industry. The EGCR also offers an opportunity to connect exhibitors with customers in a relaxed atmosphere conducive to making new contacts and strengthening existing relationships.

We invite you to make the most of your Roundtable experience by partnering with us and becoming a sponsor. Your contribution allows us to continue and expand the educational programs to support and train current and next generation employees on safety, best practices and more, as well as fostering an environment of networking and friendship.

Sponsorship provides you with an opportunity to:

- Create awareness and visibility for your product lines and services

- Educate prospects about your products and services

- Strengthen your company's brand within the industry
